INFO

A LONG WAITED MIXED-USE AND ENTERTAINMENT COMPLEX BY THE AEROPORTS DE PARIS
The Paris area airport - Charles de Gaulle – has become the first airport hub in continental Europe because of its advanced technology, its flux of freight and travelers, and its inestimable potential for growth.

This airport zone – consisting of 10 business parks, multiple commercial zones, and professional fairgrounds - is the first employment center in the Ile-de-France region, after La Défense, with over 120,000 employees. ...
